Death from Gverwork of Mrs. Mary bridge Corresponding Secretary of the W. C. T. U.

CHICAGO, Oct. 26.-Mrs. Mary A. Woodbridge, secretary of the W. C. T. U. died last evening at 6:11 o'clock at the residence of Mrs. C. E. Bigelow, who is a cousin of Miss Frances Willard.

Mrs. Woodbridge was known as "Miss Willard's right arm," and her death is the direct result of overwork. The disease with which she died is termed embolism. Her health was exceedingly good up to two days ago, and she died before her friends realized that she was really sick.

Mrs. Woodbridge's husband, F. W. Woodbridge, of Ravenna, O., arrived in the city yesterday, together with George W. Woodbridge, an only son. Mrs. Mattie Weyand and Mrs. Dr. Brooks, two daughters living in Cleveland, O., arrived last evening.

The remains will be taken to Ravenna this morning, and the funeral will take place in that city to-morrow. Telegrams of condolence have been received by Mr. Woodbridge from Lady

Somerset, Frances Willard and other

prominent Christian Temperance union The next convention of the union will be beld in Cleveland, on November 16, and it was her preparation for this meeting which gave Mrs. Woodbridge so much work and worry.

DESTRUCTIVE PRAIRIE FIRES.

Four Lives Lost and Thousands of Cattle Burned—Fanned by a Seventy-Miles-an-Hour Gale—A Number of Human Lives

Reported Lost. Омана, Neb., Oct. 26.—The most destructive prairie fires in the history of the state are now raging in Cherry, Thomas. Grant, Hooker and Sheridan counties. They first started in Thomas county, in the Snake Creek valley, Tuesday, and after once getting under headway, fanned by a stiff breeze, traveled westward into Cherry and Hooker counties with a speed and ferocity that was startling in the extreme. In these counties hundreds of thousands of head of cattle have been grazing, they having been sent here from the southern portion of the state where the drought was felt the most heavily, the grass in this section being fair, and it is thought the most of them are burned, as they were in the direct path of the flames.

Near Mullen, on the ranch of L. E. Lasher, four lives are reported lost, including Lasher himself, and several thousand tons of hay are burned.

At Whitman and Hyannis several hundred head of stock perished and a considerable quantity of hay was burned. It is almost impossible to get authenticated information, as it is some distance from railroad stations; but news that has already been received places the loss to the farmers and stock raisers at an enormous figure. The flames are traveling westward, fanned by a wind blowing at the rate of seventy miles an hour, and the loss cannot be estimated at this

THE DEADLY MORPHIA.

A Bride Awakens to Find Herself in the

WATERTOWN, N. Y., Oct. 26.-At noon yesterday a tragedy was discovered in a room in the Harris house in this city. James Pierce, alias E. Case, of Toronto, Ont., is dead and the woman who was with him, and who claims to have been his bride, is slowly recovering from a dose of morphine which was nearly fatal to her also. They registered at the Harris house last evening as E. Case and wife, of Toronto.

She claims that they were married in Kingston, October 17, and crossed the river into this country, where they have been wandering about on an aimless bridal tour. It appears that she had been accustomed to the use of morphine, and that both indulged in it last night. They did not retire, but sank to sleep in each others arms, and this morning when the woman awoke she found herself and the man lying across the bed and his body cold in death. She crawled to the door and sank on the floor in the hall, where she was found and the tragedy discov-

The woman has been taken to the city hospital and the man to the morgue to await identification and the action of the coroner.

BACK AT THE WHITE HOUSE. President Cleveland and His Family Re-

turn to Washington. WASHINGTON, Oct. 26.—The president and Mrs. Cleveland and the two little Clevelands and their nurses arrived here at 10:10 last night over the Pennsylvania railroad, the train being twenty-five minutes late. The president and his family traveled in Mr. Frank Thompson's private car, which was switched on to the regular Boston

Private Secretary Thurber had two carriages in waiting for the party and they were driven immediately to the executive mansion which has been thoroughly renovated during their ab-

train at Jersey City.

Two private detectives walked, one on each side of the president, guarding him closely to prevent any such advance as that made by the crank at Dr. Bryant's house in New York city yesterday.

THE BOYCOTT.

Successfully Worked on a Mine Employe

at Massillon, O. Massillon, O., Oct. 26.-John M Stutz has been discharged from the mine of E. G. Krause & Co., the other miners having demanded this as their price for continuing at work. During the late strike Stutz obtained employment of the Wheeling & Lake Erie Railway Co. by signing a contract not to join the American Railway union. When work in the mines was resumed the miners resolved to boycott Stutz, and this is the result.

cadly Duel Between Two Farmers at Ellendale, Near St. Louis.

Sr. Louis, Oct. 26 .- Lee Webber, aged 30, and Thos. Thompson, aged 45, both living near Ellendale, fought at 9:30 a. m. on Manchester road just west of the city limits over a hog-trade feud.

Thompson stabbed Webber over the

heart and himself received a fractured skull from brass knuckles wielded by Webber.

The latter is in the hands of physicians at Ellendale, supposed to be dying, and Thompson is a prisoner at the city Lospital, probably fatelly wound- Edward Neese at a crossing near Reels-

ROOSEVELT'S REPORT

Of the Investigation at the Pittsburgh Post Office and the Internal Revenue Office—The Contributions Levied for Campaign Purposes and the Active Part Taken in Local Politics Deprecated, but

WASHINGTON, Oct. 25.-Civil Service Commissioner Roosevelt to-day gave out his report of the investigation he conducted at Pittsburgh as to campaign assessments there. Mr. Roosevelt finds there has been no coercion practiced and no assessments levied contrary to law. He recommends that the assessments in the post office be made a test case, and says that several employes of the office who took part in political conventions should be pun-

On the internal revenue office he says: "In this office there has been no coercion and no assessment contrary to law. Unquestionably, however, the office in its present condition, being without the civil-service law, is used as a cog in the machine of whichever party happens to be in power. At present it is the democratic party, but the conditions were doubtless substantially the same when the republicans were in power."

The collector informed Mr. Roose velt that all of the appointments of the men under him were made on the sugar in the new tariff law. initiative and at the suggestion of the different democratic leaders. Of this Mr. Roosevelt says:

"The men thus appointed have, o course, always been active ward workers-leaders at the primaries and at the polls. They have not been assessed or coerced into paying, save in so far as they have been coerced by the feeling of their party associates. All those who had been in office a full year had paid, or intended to pay, sums varying from \$35 to \$150. Perhaps \$75 or at least \$50 would be the ordinary amount paid the whole force in Mr. Kearns' office thus contributing certainly \$6,000 or \$7,000, and probably more, to the local campaign fund. These payments are taken as a matter of course. As a consequence the collector's office forms a big treasury chest, out of which the dominant party can take sums to expend, and, honestly or dishonestly, as the case may be, influence the elections. This investigation of itself a ffords conclusive proof that the internal revenue office should be classi-

As to the Pittsburgh post office, Mr Roosevelt has this to say:

"It appears that Postmaster O'Dounell has not violated the civil-service law. He knew, however, that an effort had been made to collect assessments, and it is to be regretted that he did not publicly state at the time-what he has since stated to the commission-that he had no hand in making those assessments and that he would not discrimifor refusing to contribute. It is also to be regretted that he did not keep his subordinates in the primaries and forbid it, especially as his nephew was one of these offending subordinates. But in the general management of the office under the civil-service law, the postmaster has done very well indeed, far better than has been the case in many other offices."

The treasurer of the democratic county committee, Dr. Fleming, sent to each employe in the classified service of the post office a letter requesting him to call at his office. Those who went there were solicited for money for political purposes, the amount suggested being about 2 per cent. Mr. Fleming stated that he was confident he had not violated the law, for he was acting in accordance with Attorney-General Olney's opinassessments by letter in a government

Under this opinion the commission does not feel that it can advise the prosecution of Mr. Fleming, but Mr. Roosevelt earnestly advised that this be used as a test case in urging upon iting the solicitation of employes in who are Swedes. The body of Frank Such solicitation as that of Mr. Fleming, he says, amounts to blackmail, and, curiously enough, the pressure is most severe on people of the opposite

It appears that certain employes of the Pittsburgh post office have been very active in politics. At the June legislative convention of the demodelegates and when elected served as against hope. such: J. Campbell O'Donnell, ". CAN'T PROSECUTE REPEATERS. Fogarty, Edward O'Brien, J. D. Boggs, D. D. Collins, J. F. Regan, James Carri and W. Hawthorne. The postmaster was warned by the postmaster-general that this would not be tolerated, yet at the August convention the following served as delegates or ran for the position of delegates: James Atwell, J. D. Boggs, J. J. Sullivan, J. F. Regan. D. D. Collins was very active at the primaries.

Mr. Roosevelt concludes by saying that during the past year several railway mail employes have been punished for participating in republican primaries, and for acting as delegates or officers in republican conventions. least those employes of the Pittsburgh post office who, after the warning of the postmaster general, took part in the primaries and conventions in Aug- as under the federal statute which ust should be punished."

TEN MINERS ENTOMBED.

And One Killed by the Fall of a Rock Roof to a Mine. IRON MOUNTAIN, Mich., Oct. 25 .- The stone which roofed a room on the fourth level of the Pewabic mine here. collapsed this afternoon, killing one

man and imprisoning ten others. A large force of men is at work clearing away the rubbish in an endeavor to extricate the unfortunates, but the progress is slow. Capt. Brown thinks the men will be taken out alive. but it will be eighteen or twenty hours before they can be reached.

Two Fireman Fatally Injured. COLUMBUS, O., Oct. 26.-Assistant Chief of the Fire Department Jack Welsh and a fireman named Tipton Dundon were caught under the heavy slate roof in a burning barn last night and badly crushed. Their backs seem to be dislocated, and it is believed they are fatally injured.

Killed at a Crossing.

TERRE HAUTE, Ind., Oct. 26.-A Vandalia east-bound passenger train yes-terday morning killed Eli Crouse and ply with the request of the secretary ville, Ind.

GERMAN RETALIATION

Against the United States for Discrimina ting Against German Beet Sugar in the New Tariff Law Beginning to Make It-

WASHINGTON, Oct. 27.-The German ambassador has formally notified the secretary of state that in consequence of the introduction of Texas fever by means of two shipments from New York, the importation of fresh beef and cattle from the United States to Germany would shortly be prohibited. In his official note Baron von Saurma-Jeltse adds, in regard to cargoes afloat, that shipments made from the United States up to the 28th of October will be admitted to enter Germany only on condition of being slaughtered immedistely upon landing.

The department of state makes public the notice for the information of intending shippers of live cattle and fresh beef intended for Germany, but officials decline to comment on the matter, declaring that they have no further information regarding the cause of this action of the German government.

It is thought, however, that this marks the commencement of a policy of commercial retaliation against the United States on account of the discrimination against German beet

The department of agriculture, which maintains a careful inspection of cattle and meat products exported, insists that it is impossible that cattle affected with Texas fever or any similar complaint could have been shipped from New York, as claimed by the German officials. No reports have been received which indicate that this disease or any other could have recently been exported from the United States.

Cattle are not expected to arrive in perfect condition in foreign ports after the long sea voyage, particularly at this season of the year, when vessels are liable to have rough passages, due to the stormy conditions which prevail on the Atlantic. The fever thus produced by the sea voyage is what is probably called "Texas fever" by the German government.

No complaints have been received from other countries. The note of the German ambassador is the first intimation that the Germans had any fault to find with American exportations of cattle. The department of agriculture will be called upon to investigate the complaint made by Germany, and Secretary Gresham, it is expected, will send a protest against Germany's action to that government through the American ambassador at Berlin.

POLITICAL ASSESSMENTS.

Commissoner Roosevelt Has More to Say

Regarding Them. Washington, Oct. 27.—"In reference to the charges of political assessments at Philadelphia," said Civil Service ommissioner Roosevelt yesterday, "the commission finds, after investigation, that there has been very little athimself informed as to the activity of tempt at assessment in either the post office or customhouse so far as the classified service is concerned, the majority of clerks, carriers, etc., being left free to contribute to either party as they wished. In the mint the condition of affairs was much the same as at the Pittsburgh internal revenue office. Most of the employes were men appointed for political reasons from the rank of the dominant party. These people have received circulars asking them to contribute, and again reminding them of their failure to contribute if they did not do so at the first request. Apparently there was no violation of the law committed in the way these circulars were sent out, and there was certainly no duress exercised by the head of the mint on his subordinates to make them contribute."

ion, which gave him the right to solicit | THE PEWABIC MINE DISASTER.

Hopes Still Entertained for the Rescue Alive of Some of the Entombed Miners. IRON MOUNTAIN, Mich., Oct. 26 .- It has been ascertained to a certainty that the ten men entombed in the Pewabic mine by the caving in of yescongress the passage of a law prohib- terday are all Cornishmen but two, the government service anywhere. Gabardi, the Italian, who nearly escaped has been recovered. At 6 o'clock this evening they had dug to within eight feet of the men, and some of them at least were still alive, as a distinct tapping can be heard on a pipe leading to where the men are entombed. It is now thought probable that at least some of them will be rescued alive. The relatives of the cratic party, the following men ran for men linger around the shaft hoping

An Unlooked-for Result of the Repeal of

the Federal Election Laws. WASHINGTON, Oct. 27.-The decision given yesterday by Mr. Draffen, the Assistant United States district attorney at Kansas City, that he could not prosecute repeaters in the coming election in view of the repeal of the federal election laws, was a topic of interest at the department of justice to-day.

Attorney General Olney said that he had not looked into the question, but from his present knowledge he believed that Mr. Draffen was correct in his view of the case. There was no "It would seem," he says, "that at doubt, however, said the attorney general, that repeaters could be brought into courts other those of the United States and punished as severely had been repealed.

LAID LOW BY FIRE.

A Portion of the Wm. Deering Harvester Works in Chicago Burned. CHICAGO, Oct. 27 .- The north half of the mammoth brick warehouse, belonging to the Wm. Deering harvester works, located at Clyburne avenue and the north branch of the Chicago river, was destroyed by fire at 8 a. m. The building housed a large amount of hemp and completed machinery, and its contents are a total loss. The loss on the building is placed at \$15,000 and on the contents \$175,000; partly covered by insurance. Origin unknown.

The Question of Sending Troops to Indian Territory.

WASHINGTON, Oct. 27 .- The first meeting of the cabinet since the Wilson bill became a law occurred at the White House this morning, all the members attending except the secretary of agriculture, who is in Europe. Perhaps the most urgent question to be considered is that of sending troops to the Indian territory to run down a band of robbers. The war deof the interior for troops, pending a decision from the attorney-general.

lood Results of the Tariff Reduction Are

Already Apparent. It is an established fact that the tar iff bill passed by the democratic congress has already proven to be a blessng to the poor people of the nation. It has reduced the prices of nearly all the necessaries of life and we now have cheaper goods of many other kinds than we have had in many years before. One dollar will now buy from ten to twenty-five per cent. more than it would one year ago when the Mc-Kinley law became operative.

Prosperity is returning, business is reviving, wages are increasing and the cost of maintaining life and comfort is decreasing. What more can the Ameriean people want? This condition of affairs was brought about by the enactment of the Wilson bill. Although the new toll schedule will not go into ot until the 1st of January next, curpets are cheaper already, and every roman in the land will tell you that sue can buy cheaper dress goods now than she has been able to do in a long time. We have cheaper tin, and this, of course, will lower the price of canned goods. We will have cheaper white lead, which will reduce the cost of paint; and the price of shoes will be lowered by the reduction in the costs of acids.

The new tariff bill has already affected fruit quotations, especially in the case of oranges and lemons. Every housewife in the country is interested in the subject of canned goods. They are used very extensively and are quite an item in the grocery bill. The tariff on canned vegetables has been reduced one-third in most instances, while the duty on tomatoes has been lowered from 45 to 20 per cent. This means that the prices of canned goods will be considerably below that paid now. The effect of the reduction of the tariff on butter, cheese and eggs is already apparent.

In October, 1898, the price of butter thirds to 30 cents for creamery state | was not the kind he wanted. best. This year the prices range from 18 to 25% cents. Last year the poorpaid last year from \$4 to \$4.50 per case, \$3.25 is the price.

BLESSING TO THE PEOPLE. under the McKinley tariff, are now on the free list.

This is only the beginning of the good times that are surely and quickly coming. If the Wilson bill has had such a gratifying effect on the industries and prosperity of the country in the short time since its passage the people may expect a great deal more before the year is over, and may look forward to years of increasing good times and

happiness.—Albany Argus. THE HOOSIER HUMBUG.

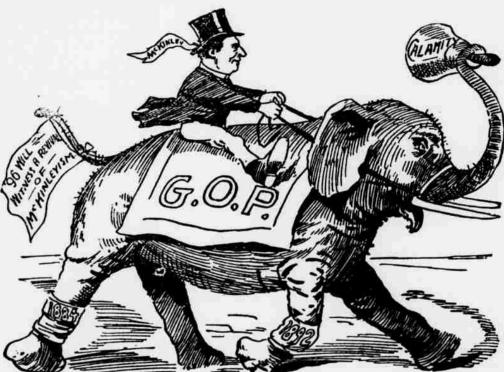

President Harrison makes a very

Benny Tries to Throw the Blame Off Himself.

earnest, but at the same time very futile effort, in his recent speeches, to lay the blame for hard times at the door of the democratic party. This is practically resorting to the stale device of saying "Stop thief!" in order to throw the pursuing taxpayers off the scent. Hard times were not brought about by Cleveland's administration, because it left a surplus of a hundred millions in the treasury. This amount was dissipated under Harrison's regime, and, as a legacy to his successor, he caused the treasury to loom up like a hole in and see you, old man."-Detroit Free the ground with fifty million dollars | Press. deficit. For Harrison himself to now come forward and accuse the democracy, and inferentially Mr. Cleveland, of extravagence, suggests the inquiry: "Where does he get his nerve script. food?" If the Harrisonian expanse of indurated cheek could be used to plate warships, the contest between artillery and armor plates would be decided definitely in favor of the latter.

It is, however, possible that this scheme may catch a few unthinking voters. There was the case of the fisherman, who was satisfied in his own mind that he ought to vote against the administration because there were fewer eels in his trap than the year before, when there was a republican president at Washington. Such people are about as logical as the man who would favor the removal of ranged from 1714 cents for western Farmer Dunn because the weather

In regard to binding twines and cordage, the Cordage Trade Journal has the | kind of a doff, to the boundless gall of following to say in reference to the the old Hoosier Humbug.—Tammany new schedule for hemp, flax and jute: Times. "One effect of the new tariff is likely to be a period of depression for some manufacturers of jute. The placing of flax and hemp on the free list and the reduction of the duty on selling prices of twines and yarns, which resuits in their use where jute has been used. In maintaining the duty on flax and hemp the government has placed them at a disadvantage compared with jute, which was in 1890 put on the free list. Jute was able to build up a business which was to last as long as the conditions lasted. Now that conditions have changed. jute must adjust itself to the changed conditions and build up a business in open and fair competition with the lower grades of hemp and flax. Already the hemp and flax manuacturers in this country are receiving orders that cause them to increase their production and, in some instances, to run their factories on full time. Jute manufacturers, on the other hand, report poor business, and some of them are reducing their output. In this case, at least, the abolition or reduction of the tariff is esulting in the use of better goods than bad

been previously used. Sweeping reductions in the duties charged on imported silks were made by the new tariff, and all these favor the home manufacturer. Carded or combed silks now admitted to this country upon the payment of duties equal to 20 per cent. of the invoice value were taxed 50 cents per pound under the McKinley tariff. Just what this meant is shown by the official announcement that the McKinley tariff of 50 cents per pound amounted to 60%

Retail dealers who fail to give their customers the benefit of the reductions in cotton cloths of all kinds will soon lose their trade. The prices demanded for almost every kind of manufactured cotton fabrics have slumped since the new tariff schedules went into effect. On unbleached cottons the new tariff imposes duties ranging from 1 to 13/ bukes than this from democratic cents per square yard; under the Mc-Kinley tariff the cost of importation touch with all parties. McKinleyism ranged from 3 to 4% cents per square

HE WAS HONEST.

And Deplored the Rascallty of the Age in Which He Lived. "Honesty in politics?" said the man who was dining at the table next the window. "Huh, there isn't any such thing. That's a fiction that was played out long, long ago. Nowadays, it is the man with the biggest fortune who gets the offices. I tell you that this

country has reached a deplorable state "How's that?" asked the man who sat

across from him.

"Why, there is no honesty in business, social or political life. The elections are crooked. The vilest sort of schemes are resorted to in order to get votes. Men are openly bribed. Men who get into office steal everything they can get their hands on. It's the same way in business, too. You can never tell when to trust a man. People you have dealt with for years do not hesitate to do you up if they get a chance. They sell you poor goods at high prices. They use all sorts of dishonest means to get your trade, and when they get it they at once proceed to get even by cheating you. And in society-why, society is rotten to its core. Honesty is as scarce as purity. There is nothing that is too mean for these people who pretend to be the leaders of the social sets. I am disgusted with the whole business. I had a good mother who taught me to be honest and I have always tried to live up to her teachings. I can look any man in the face and say that I am an honest man. But-Let's get out of here and back to the office.'

father. Hankinson-Yes, and when I go there, blame him, he takes after me!-Chicago Tribune.

A Stupid Time. "What kind of a time did you have at Miss Beacon's literary soiree?" "Oh, stupid. None but clever people there."-Kate Field's Washington.

Quite Natural. "Don't that Mr. Soleheir take up a great deal of room about the club?" "Yes, but it is natural that he should, for he is such a swell, you know."-N. Y. Herald.

Tom-You ought not to consider your case as hopeless just because she said "no." Jack-To be perfectly exact, what

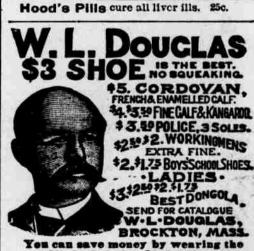

she said was "rats."-N. Y. World. On the Home Stretch.

"I want a position for my son as an editor." "What are his qualifications?" "Failed in everything else!"

Water In Rivers, Ponds, Wells, and other sources of drinking water threatens danger from malarial germs. This condition is usually found in the Fall, and it points to Hood's Sarsaparilla as a safeguard against attacks of disease. Hood's Sarsaparilla makes pure blood, and thus guards the system

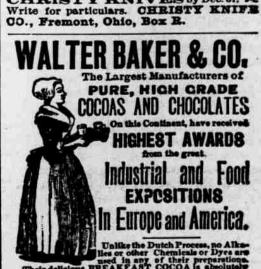

· sesses

"I have been using ures Hood's Sarsaparilla occasionally for the last three years. I have suffered from malaria fever for five years, and have tried many kinds of medicine, but found no relief till I commenced to take Hood's Sarsaparilla. I have all confidence in it, and believe it to be far superior to any other tonic." P. J. Fitz-GERALD, 121 Ninth St., So. Boston, Mass.
